Chapter 7: Synthesis of Sentences — Complete Notes

1. Definition & Core Concept (परिभाषा और मुख्य अवधारणा)

- Synthesis (संश्लेषण) का अर्थ होता है—दो या दो से अधिक साधारण वाक्यों (Simple Sentences) को आपस में जोड़कर एक नया ****Simple****, ****Complex****, या ****Compound**** वाक्य बनाना।
- Transformation में वाक्य का रूप बदलता है पर अर्थ नहीं, जबकि Synthesis में दो या दो से अधिक वाक्यों को मिलाकर एक वाक्य बनाया जाता है।

2. Combining Simple Sentences into a Single Simple Sentence (साधारण वाक्य बनाना)

दो या दो से अधिक Simple Sentences को जोड़कर एक नया Simple Sentence बनाने के मुख्य तरीके:

- By using a Participle (Participle का प्रयोग करके):

- Rule: जब दोनों वाक्यों का Subject एक हो और एक कार्य समाप्त होने के बाद दूसरा शुरू हो, तो पहले कार्य के लिए Present Participle (-ing) या Perfect Participle (Having + V3) का प्रयोग करते हैं।

- Example: He saw a lion. He ran away.

-> Seeing a lion, he ran away.

- By using an Infinitive (Infinitive 'to + V1' का प्रयोग करके):

- Example: He wanted to educate his son. He sent him to Delhi.

-> He sent his son to Delhi to educate him.

- By using Nominative Absolute (स्वतन्त्र कर्ता का प्रयोग):

- Rule: जब दोनों वाक्यों के Subject अलग-अलग हों।

- Example: The sun rose. The fog disappeared.

-> The sun having risen, the fog disappeared.

• By using Preposition with Noun or Gerund (Noun या Gerund के पहले Preposition का प्रयोग):

- Example: He completed the work. He got no reward.

-> In spite of completing the work, he got no reward.

• By using Adverb or Adverbial Phrase (क्रिया-विशेषण का प्रयोग):

- Example: He finished his work. It was quick.

-> He finished his work quickly.

3. Combining Simple Sentences into a Complex Sentence (मिश्र वाक्य बनाना)

एक Principal Clause और एक या एक से अधिक Subordinate Clauses को जोड़कर Complex Sentence बनाया जाता है। इसमें Conjunctions (Noun, Adjective, या Adverb Clauses) का प्रयोग होता है:

• By using Noun Clause (That, what, why आदि से जोड़ना):

- Example: He will fail. This is certain.

-> It is certain that he will fail.

• By using Adjective Clause (Relative Pronouns जैसे who, which, that से जोड़ना):

- Example: I met a boy. He was blind.

-> I met a boy who was blind.

• By using Adverb Clause (Time, Place, Cause, Condition आदि दर्शाने वाले शब्दों से जोड़ना):

- Example: You work hard. You will pass.

-> If you work hard, you will pass.

4. Combining Simple Sentences into a Compound Sentence (संयुक्त वाक्य बनाना)

दो या दो से अधिक Independent Clauses (मुख्य उपवाक्य) को Co-ordinating Conjunctions से जोड़कर Compound Sentence बनाया जाता है। इसके चार प्रमुख प्रकार हैं:

- Cumulative Conjunctions (जोड़ने वाले शब्द: and, both... and, not only... but also):
 - Example: Ram went to market. Shyam went to market.
 - > Both Ram and Shyam went to market.
- Adversative Conjunctions (विरोधाभास दर्शाने वाले शब्द: but, yet, still, whereas):
 - Example: He is poor. He is honest.
 - > He is poor, but he is honest.
- Disjunctive / Alternative Conjunctions (विकल्प दर्शाने वाले शब्द: or, either... or, neither... nor, otherwise):
 - Example: Make haste. You will miss the train.
 - > Make haste, otherwise you will miss the train.
- Illocative Conjunctions (परिणाम दर्शाने वाले शब्द: therefore, so, for):
 - Example: He was ill. He could not come.
 - > He was ill, therefore he could not come.
